Strong and Durable…

Convenient Access to your Porch, Deck, Basement or Upper Floor
Residential Vertical Platform Lift from Bruno

Now your porch, deck, basement or upper floors are totally accessible through these affordable solutions from the leaders in residential accessibility technology.

**Peace of Mind** is not bought...it is given...through the skill, dedication, and vision of proud craftsmen who design and build products to increase the independence of people around the world.

**Safety** is the watchword. **Reliability** is the standard. **Value** is the promise.

---

The entire bottom of the platform is spring sensitive, shutting the unit down if an obstruction is encountered.

Automatic self-lowering folding ramp provides convenient entrance for mobility devices when in the “down” position, and a safety barrier in the “up” position.

Simple, accessible push button or optional paddle controls with emergency stop switch are easy to operate.

Optional – Top landing gate includes mechanical interlock released only with platform at the top landing.
The Bruno name has always meant trust.

Our Vertical Platform Lift (VPL) extends that promise to another category of solutions “for your independence”.

For the consumer who insists upon performance and reliability, the Bruno VPL-3100 offers the perfect solution for your home accessibility needs.

Performance

With a rated weight capacity of 750 lb (340 kg), Bruno’s Vertical Platform Lift can handle virtually any power wheelchair or scooter and occupant. Its rugged dependability and powerful performance provide complete confidence.

Quality Craftsmanship

Dimensions shown are for the model VPL-3153

For detailed specifications and dimensions go to www.bruno.com.

VPL Options

Optional keyed call/send controls offer additional security and ease of operation.

Stay dry with an optional Canopy! It can be retrofitted for previously installed units. (Not available for 90° platforms)

Optional Door or Gate Operator can be fitted to most doors and gates for power-assisted operation.

Bruno offers added peace of mind with our battery powered Vertical Platform Lift.

Our battery powered VPL provides access in and out of your home even during a power outage.

VPL-3100 Series
Vertical Platform Lift™ VPL-3100 Series Specifications

**Standard Features**
- Automatic self-lowering folding ramp
- Weather protected controls
- 750 lb (340 kg) lifting capacity
- 53" (1364 mm) maximum floor to floor height (Model VPL-3153)
- 75" (1905 mm) maximum floor to floor height. 28" (711 mm) minimum floor to floor height is required (Model VPL-3175)
- Separate up and down push-button switches with key switch control
- Emergency stop switch on platform – push to stop, pull to reset
- Welded steel tubular guide construction with formed 16 GA sheet steel guarding
- Totally enclosed formed-steel bottom safety pan
- Acme screw drive, with backup safety nut

- Weather resistant powder coated paint throughout; platform and landing gates are also e-coated for maximum protection
- Non-skid surface on platform and ramp
- Bruno's Gold Warranty – Two years on major components and one year on parts

**Optional Equipment**
- Top landing gate includes call/send controls with key and mechanical interlock (released only when platform is at top landing)
- Platform gate
- Manual lowering hand tool
- Landing call/send station with key switch
- 90° Platform (adjacent exit at top landing)
- Paddle controls
- Platform canopy
- Cold weather package (heating kit)
- Automatic Door/Gate Operator

**Standard AC Powered Unit**
- 1 hp motor, 1750 rpm, 110-120V 15A, 60Hz dedicated power
- Screw braking at the landings
- CSA/C-US listed

**DC Battery Powered Unit**
- 1/2 hp motor, 1750 rpm, 24VDC
- 5A, 24VDC output battery charger, 120VAC, 60Hz, 5A max input power required
- Standard 17AH batteries included
- Optional 34AH batteries
- CSA/C-US listed

Bruno’s “Extended” VPLs Provide Simple Access from Floor to Floor

Down to the basement, up to a deck or in a hoistway… The VPL-3200B Series offers up to 14’ (4343 mm) of lifting height.

Smooth, quiet operation is delivered by the new screw drive, and with continuous power from DC batteries, entering or exiting your home during power outages is never a concern.

Exclusively for residential use, Bruno’s taller VPLs handle up to 750 lb (340 kg) of weight and feature an Emergency Lowering System as standard equipment. The system operates from an external (outside the hoistway) keyed box.
